SOUND OF SCANDINAVIA

CENTRE OF ATTENTION

Living LV-HUB connects all your music and TV sound into one small musical hub. Any sound source can be connected, and with dual optical TOSlink inputs, your wireless possibilities are endless. Connect up to 4 sound sources and choose which one to listen to. Stream music easy and in perfect hifi quality to all your Living speakers in your whole home

Transmits wireless audio to all your Living speakers.

LINE 3.5mm stereo Optical 1 (TOSlink) Optical 2 (TOSlink) USB (computer, media player, NAS)

DESIGNED TO FUSE YOUR AUDIO GEAR INTO ONE TRUE WIRELESS HIFI SOUND SYSTEM

With the LV-HUB you don't need D/A converters, soundcards, preamplifiers or speaker cables – listening to your music is easier than ever. Connected source receives music from an analogue or digital input and transmits it wirelessly to the powered Living loudspeakers. In perfect hifi quality. Installation is done simply without any complicated software. Just plug in and you are ready for wireless music. It should be fun and simple to listen to music!

Easily change your connected sources with the remote.

Sources: Apple TV, turntable and flat TV
Play your music wirelessly using AirPlay, and easily change source to TV-sound. Even play your vinyl in best wireless audio.

Sources: PC, flat TV and iPad
Play your stored and streamed music from your PC. Get great sound from your flat TV TV-sound. Play games on your iPad with superior sound.
